TARA ELECTRIC VEHICLE

All Rights Reserved By TARA Electric Vehicle.

A REVOLUTION IN THE GOLF CART INDUSTRY

Ever since the first Tara golf cart was conceived 18 years ago, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomise our brand. Vehicles with exemplary design credentials and engineering capabilities. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Tara truly enables you to make more of your world, to go above and beyond.

TARA's compelling exterior changes enhance the vehicle's sporting profile and exterior detailing, whilst its all-new interior provides a sophisticated, crafted, contemporary experience. The latest technologies help keep you safe, connected, informed and entertained.

Optional GPS Based Golf Cart Fleet Management System.

Introducing the cutting-edge TARA GPS systems for in-cart use, featuring a high-resolution 10" display and powered by the latest Android operating systems. Designed for quick development and seamless feature integration, our systems offer flexibility without tying you to a specific golf cart. Notable features include cart tracking, a tablet-based multi-layer geofencing app, intuitive cloud-based ad builder software, and comprehensive reporting on cart utilization and pace of play.

MULTI-FUNCTIONAL DASHBOARD

Tara's refined exterior and contemporary interior enhance your golfing experience. The redesigned interior minimizes noise and prevents sliding, accommodating drinks, tees, golf bags, cellphones, and gloves. Tara also keeps you informed about the golf cart's status, ensuring a seamless and informed golfing experience.

STEERING HEIGHT ADJUSTMENT

Tara's unique steering height adjustment is a standout feature, providing driving comfort for individuals of various sizes—from the largest man to the most petite lady. This feature allows easy customization to suit every driver's preference.
